

DRY COOLER RANGE

Onda offers a complete range of flat and V shape liquid coolers able to satisfy a wide range of applications

- Coils with copper tubes and high efficiency corrugated aluminium fins
- High efficiency fans with AC and EC technology in various sizes, selected to provide the best performance at low noise level
- Electrical boxes and smart speed regulation to reduce the power consumption in operation
- More than 25 configurable options to satisfy any need

Onda adiabatic system allow to work also with high ambient temperature, low water consumption, and no Legionella
